Steamer Portland Arrives at Seattle With Nearly \$600,000.

A CORRESPONDENT'S STORY.

Strike the Greatest In the History of the World—Supplies Bound to Give Out and Untold Suffering Will Follow—Living in Tents—Appeals for a Stop to Wholesale Transportation.

SEATTLE, Wash., Aug. 30.—The steamer Portland arrived here yesterday. It was 14 hours after the Portland was sighted off Cape Flattery before she arrived here. The Portland carried 13 miners, each of whom brought only a small part of his stake. The total amount of dust on board the vessel is perhaps \$575,000. The Portland was delayed by the failure of the P. B. Weare to arrive at St. Michaels and by a storm on the North Pacific ocean. The miners on board with the amount of their total mining profits, parts of which were brought with them, are as follows: J. Rowan, \$460,000; Jim Bell, \$45,000; Joe Goldsmith, \$35,000; N. W. Powers, \$35,000; W. W. Caldwell, \$35,000; W. Oler, \$30,000; C. K. Zilly, \$25,000; F. W. Cobb, \$25,000; W. Zahn, \$15,000; A. Buckley, \$10,000; M. S. Lansing, \$15,000; B. W. Farnham, \$10,000; M. R. Camler, \$15,000.

H. N. STANLEY'S VIEW.

Says People Will Starve to Death This Winter in Alaska.

SEATTLE, Wash., Aug. 30.—H. N. Stanley, who went to St. Michaels as a press correspondent, returned to this city on the steamer Portland. He says: "I have been seven weeks at the mouth of the Yukon, at St. Michaels, where I saw all the miners coming out and interviewed them. As a result I feel it my duty to advise everybody to stay out until next spring. Wild, and in many cases exaggerated reports, have been circulated since the first discoveries were made. The strike, however, was and is one of the greatest if not the greatest in the world's history. Probably \$2,000,000 was cleared up this spring, and next spring I look for from \$5,000,000 to \$7,000,000.

"No new strike had been reported up to the time of my leaving and another may not be made for five years, although Alaska is an enormous country and will yet, I believe, produce more gold than we dream of.

"I am aware there is a popular impression that supplies can be bought in the vicinity of the mines. They may be present but at six times Seattle prices, but they are taken at even those figures faster than they can be got in and before winter is half over, if the present population stays in, there will be actual starvation.

"The average man requires about one ton of carefully selected food and clothing for a year's supplies. In the summer of 1896 about 3,500 tons of supplies went up the river, and the new population of 1,500 to 2,000 suffered from want. This season not more than 4,200 tons of supplies can be got up the river, fully half of which is run and tools, as well as supplies other than food. There are more than three times as many people there than last year. Figure it out for yourself.

"Grub Completely Cleaned Out.

"Grub was completely cleaned out this spring and last winter there was such a scarcity that moose hams sold for \$30 each, flour \$120 per hundred, bacon at a pound; what will not happen this coming winter? Why, will not people actually starve to death?

"As to shelter, 90 per cent of Dawson was living in tents in July, labor is scarce and houses cannot be built. How are 7,000 people to withstand the rigors of a nine months' winter of semidarkness, when the mercury goes 70 degrees below zero?

"To draw provisions for the trip from Dyea to Dawson any time before the spring breaks up is an impossibility. Relief for those caught in the Klondike after winter sets in is equally impossible and, in the name of humanity, I ask that a stop be put to this wholesale transportation of people without supplies. Let no man be allowed to enter that region unless he carries with him enough food and clothing to last him a year.

"There are women and little children in there today who should be sent out as far as St. Michaels before navigation closes. Let it not be made a land of giant hunger, wretchedness and death. Let no one be allowed to wrest from the foolish people a few hundred thousand saved, borrowed or begged dollars. There will be as good chances for mining in the future as now. Let the people wait. This is not a Cripple Creek or Deadwood proposition. If caught, they cannot walk out."

SWEPT OVER THE FALLS.

Two Men Floating Down the Ohio Have a Narrow Escape.

LOUISVILLE, Ky., Aug. 30.—A pleasure trip of 1,500 miles would have had a fatal termination last night on the Ohio river falls but for the promptness of Captain Devan and his crew of lifesavers. A signal of distress was sent out from the Indiana shore. Two men were seen in a small boat about to go over the falls. The lifesavers rowed his madmen, but before they could reach the boat it had drifted into the current and was swept over the falls. As quickly as possible the lifesavers hurried around the falls and rescued the two men as they were going down for the last time. They gave their names as Jeremiah and George Bristol. They had rowed and floated in the skiff from Jamestown, N. Y., a distance of 1,800 miles.

SLOWLY STARVED TO DEATH.

Miss Ida Owens Lives Eleven Weeks Without Food.

BELLEVILLE, Ills., Aug. 30.—For 11 weeks Miss Ida Owens has slowly starved to death. She was not sick. She craved food, but could not eat. In her 20 years she had not known sickness. She weighed 140 pounds when she caught the gripe at a picnic recently, and her esophagus was obstructed. An autopsy showed a stricture two inches above the stomach's entrance through which a needle could not pass.

FAMOUS DENTIST.

Dr. Thomas W. Evans Arrives in This Country With His Wife's Corpse.

NEW YORK, Aug. 30.—Dr. Thomas W. Evans, the famous American dentist, who for the past 40 years has been dental operator in Paris of most of the crowned heads of Europe and many celebrities, returned to this country yesterday on the French liner La Champagne from Havre. He came over with the body of his wife, which is to be interred in Woodlands cemetery, Philadelphia. Dr. Evans is now 75 years of age and is said to be worth \$35,000,000.

During the empire of Napoleon III his fame as a dentist was worldwide. In that capacity he served Napoleon, the Empress Eugenie and all the monarchs of Europe except Queen Victoria and the present sultan of Turkey. Victoria's children and the present czar of Russia when children were his patients. It was in his carriage that the Empress Eugenie escaped from Paris after the battle of Sedan.

ATTENDED CHURCH.

President McKinley Visits the Epworth League Church at Cleveland.

CLEVELAND, Aug. 30.—President McKinley attended divine service yesterday at Epworth Memorial M. E. church. He was accompanied by James F. Rhodes, the great historian, and Mrs. Rhodes. The church was crowded to its utmost capacity. The president entered just as the voluntary was being played and in time to hear a solo song by Dr. Ion A. Jackson of the choir of the Church of the Incarnation in New York.

The president remained at Mr. Hanna's home today and took part in no social or public functions. Senator Hanna announced last night that the name of his home was not Windermere, as it has been called in the newspapers, but Glenmere.

USED KEROSENE.

Mother, Daughter and Son Burned to Death.

TAMPA, Fla., Aug. 30.—Marie, the 14-year-old daughter of Mrs. Frances Valdez of Port Tampa City, went to the kitchen to start a fire yesterday. She poured on kerosene and instantly there was a deafening explosion followed by the girl's agonizing cries as she ran from the room on fire.

Mrs. Valdez at once went to her daughter's assistance and her own clothing caught fire. Both were burned to a crisp.

The house caught from the flames and was destroyed and a small boy was turned in the house. The fire spread rapidly and five houses owned by the Plant Investment company were burned, there being no fire protection.

FROM YOKOHAMA.

Steamer Columbia Arrives With a Cargo of Silk Valued at \$500,000.

TACOMA, Wash., Aug. 30.—The steamer Columbia arrived yesterday on her maiden voyage from Yokohama with 125 passengers and a full cargo of freight. She was delayed on several occasions and forced to lie to 24 hours on account of breaking machinery. The fireman died of heat and was buried at sea.

The Columbia's cargo includes 1,700 bales of silk valued at \$500,000, which will go across the continent via the Northern Pacific in a special train of eight baggage cars. The Columbia brings Oriental advices up to July 27.

VOTE OF CONFIDENCE.

The Greek Government Has Been Waiting for One for a Week.

ATHENS, Aug. 30.—The government is waiting the result of the appeal made to the chamber last Monday for a vote of confidence before replying to the note of the powers. Some apprehension is felt that a cabinet crisis may occur, but should a vote be obtained the government will indicate its readiness to appropriate the tobacco and stamp revenues as guarantees for an indemnity loan, and its readiness also to agree to the appointment of the ministers of the powers in Athens alone to control the revenues.

Notice of Reduction.

RATON, N. M., Aug. 30.—Notice has been posted at the Blossburg coal mines, operated by the Raton Coal and Coke company, of a reduction of 10 per cent in wages, to take effect Sept. 1. The price now paid for mining is 65 cents per ton, but as the men are employed only part of the time they claim they cannot live at the reduced rate.

Reaping Great Benefits.

NEW YORK, Aug. 30.—The officers of the Merchants' association estimate that the benefit by the visit through excursions of buyers from all parts of the country this fall to New York will approximate \$500,000, and say that the benefits to be derived in the future by the extension of trade are incalculable.

EARTHQUAKE IN JAPAN.

Tidal Wave Follows and a Thousand Houses Destroyed.

TACOMA, Wash., Aug. 30.—The Japan steamer just in brings news of severe earthquakes in Japan on Aug. 5, followed by a tidal wave and great floods. A thousand houses were inundated and 200 persons were killed and injured. Sixty-five Chinese villages were inundated.

Official information received at Manila confirms the reports previously published as to the disastrous character of the eruption of the Mayon volcano. Lava covered the whole mountain to its base. Several villages were completely destroyed.

At Lilib 150 bodies were recovered and buried and many remained in the lava. At another place 200 bodies were missing. Some of the bodies were so completely calcined as to be unrecognizable.

Scarcely Any Security.

LIMA, Peru, Aug. 30.—The collapse of the Massachusetts Benefit Life Association of Boston is regarded here as disastrous. The only security that the policyholders here have is 39,000 sols local guarantee, and this is scarcely sufficient to cover 25 per cent of the liabilities.

UNDER SPANISH FLAG

Alleged Cuban Expedition Sails From Cleveland, Fla., For Cuba.

SPANIARDS APPEAR PLEASED.

Seventy-five of Them Carry Bandles Two to Three Feet Long Covered With Canvases—Cubans Fearful of the Result. Senorita Cossio Cisneros' Case—Weyler Goes to Havana Province.

TAMPA, Fla., Aug. 30.—The expedition of Cubans that left here Saturday under the Spanish flag was delayed somewhat by a washout occasioned by heavy rains on the Puntagorda division of the Plant system. The party did not embark on the tug at Cleveland until early yesterday morning when it sailed away.

When the train arrived at Cleveland 75 Cubans landed with their baggage. Each had a valise and many had bundles from two to three feet long, covered with white canvases. They bore no arms.

The Cubans are very much elated but many of them are fearful of the result of an expedition that started under Spanish colors. They gravely shake their heads and say that no good can come of it. They pointed to the yellow coaches and the engine with their red trimmings, colors of the Spanish flag, and seemed troubled. The Spaniards are pleased for they predict that an expedition starting under the Spanish colors is likely to end under them.

Telegrams received here yesterday from the deputy collector at Punta Gorda denied that any expedition had sailed from that place. His official attention was immediately called to Cleveland, in his district, which place he overlooked. Revenue cutter Howard arrived at Port Tampa yesterday and signalled at once, calling Captain Rogers ashore, whereupon consultations were held with the treasury officials. The cutter at dark still remained at anchor.

SENORITA CISNEROS.

Weyler Intended to Dismiss the Case Until Recent Publications Were Made.

HAVANA, via Key West, Fla., Aug. 30.—It is asserted here that it was the intention of Captain General Weyler, as the result of quiet and friendly influence on the part of Consul General Lee, to issue an order dismissing the case of Evangelina Cossio Cisneros in a short time, but in view of the publicity given to the case and the many contradictory assertions made in regard to it, the captain general has decided to postpone action for the present.

The military commander of the Isla of Pines recently stated that many of the statements made with reference to Senorita Cisneros were without foundation and that, so far as he could judge, no extreme sentence had been imposed upon her.

It is stated that Senorita Cisneros is still confined in the Casa Recogidas, occupying a well ventilated apartment in the company of other ladies. It is denied that Senorita Cisneros is ill. She is allowed to receive visitors on three days of the week.

Captain General Weyler has left Havana with a small force for the purpose of carrying on military operations in the province of Havana.

Hobos Create a Reign of Terror at Bellefontaine, O.

BELLEFONTAINE, O., Aug. 30.—A gang of drunken hobos created a reign of terror in the Big Four yards near the railroad shops late Saturday. A stonecutter named Russ was shot at, almost robbed, thrown into a boxcar and locked in by five men. He was later released by some railroad men. A tourist was shot at twice and relieved of about \$4. Grocer Royer was held up at the muzzle of a revolver by the same gang and was handing over his watch when a fire called police, and the hobos ran. Men, giving their names as Tom wire, Joe Brooks, William O'Brien, W. F. Stevenson, were arrested, it being necessary to beat the last named to insensibility. A whole train crew was recently held up in the yards and robbed. Railroad men say if they don't get better protection from the town and the thieving hobos are not run out of the yards they will arm themselves and do some killing.

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

Steamer Portland Arrives at Seattle With Nearly \$600,000.

A CORRESPONDENT'S STORY.

Strike the Greatest In the History of the World—Supplies Bound to Give Out and Untold Suffering Will Follow—Living in Tents—Appeals for a Stop to Wholesale Transportation.

SEATTLE, Wash., Aug. 30.—The steamer Portland arrived here yesterday. It was 14 hours after the Portland was sighted off Cape Flattery before she arrived here. The Portland carried 13 miners, each of whom brought only a small part of his stake. The total amount of dust on board the vessel is perhaps \$75,000. The Portland was delayed by the failure of the P. B. Weare to arrive at St. Michaels and by a storm on the North Pacific ocean. The miners on board with the amount of their total mining profits, parts of which were brought with them, are as follows: J. Rowan, \$50,000; Jim Bell, \$45,000; Joe Goldsmith, \$35,000; N. W. Powers, \$35,000; W. W. Caldwell, \$35,000; W. Oler, \$30,000; C. K. Zilly, \$25,000; F. W. Cobb, \$25,000; W. Zahn, \$15,000; A. Buckley, \$10,000; M. S. Lausing, \$15,000; B. W. Farnham, \$10,000; M. R. Camler, \$15,000.

H. N. STANLEY'S VIEW.

Says People Will Starve to Death This Winter in Alaska.

SEATTLE, Wash., Aug. 30.—H. N. Stanley, who went to St. Michaels as a press correspondent, returned to this city on the steamer Portland. He says: "I have been seven weeks at the mouth of the Yukon, at St. Michaels, where I saw all the miners coming out and interviewed them. As a result I feel it my duty to advise everybody to stay out until next spring. Wild, and in many cases exaggerated reports, have been circulated since the first discoveries were made. The strike, however, was and is one of the greatest if not the greatest in the world's history. Probably \$2,000,000 was cleared up this spring, and next spring I look for from \$5,000,000 to \$7,000,000.

"No new strike had been reported up to the time of my leaving and another may not be made for five years, although Alaska is an enormous country and will yet, I believe, produce more gold than we dream of. "I am aware there is a popular impression that supplies can be bought in the vicinity of the mines. They may as present buy at six times Seattle prices, but they are taken at even those figures faster than they can be got in and before winter is half over, if the present population stays in, there will be actual starvation. "The average man requires about one ton of carefully selected food and clothing for a year's supplies. In the summer of 1896 about 3,500 tons of supplies went up the river, and the new population of 1,500 to 2,000 suffered from want. This season not more than 4,300 tons of supplies can be got up the river, fully half of which is rum and tools, as well as supplies other than food. There are more than three times as many people there than last year. Figure it out for yourself.

"Grab Completely Cleaned Out. "Grab was completely cleaned out this spring and last winter there was such a scarcity that moose hams sold for \$30 a pound, flour \$120 per hundred, bacon \$1 a pound; what will not happen this coming winter? Why, will not people actually starve to death? "As to shelter, 90 per cent of Dawson was living in tents in July, labor is scarce and houses cannot be built. How are 7,000 people to withstand the rigors of a winter months of semistarvation, when the mercury goes 70 degrees below zero? "To draw provisions for the trip from Dyea to Dawson any time before the spring breaks up is an impossibility. Relief for those caught in the Klondike after winter sets in is equally impossible and, in the name of humanity, I ask that a stop be put to this wholesale transportation of people without supplies. Let no man be allowed to enter that region unless he carries with him enough food and clothing to last him a year. "There are women and little children in there today who should be sent out as far as St. Michaels before navigation closes. Let it not be made a land of cannibals, wretchedness and death. Let no one be allowed to wrest from the foolish people a few hundred thousand saved, borrowed or begged dollars. There will be as good chances for mining in the future as now. Let the people wait. This is not a Cripple Creek or Deadwood proposition. If caught, they cannot walk out."

As the skipper, badly wounded, struggled to get to the bridge, he was stabbed in the abdomen. The remainder of the piratical gang surrounded the prostrate man and hacked him savagely, actually disemboweling him and leaving him a mangled corpse on deck. The mate and stewardman were the next to be attacked. Both were on the bridge and in spite of what resistance they could offer, were soon cut down. The boatswain, however, climbed up the funnel stairs and thus escaped the furious onslaught of the pirates. Returning to the deck two more of the crew and four Chinese passengers were killed. Thirty or 40 more passengers, according to accounts, have been killed, or met their death by jumping overboard. The vessel was then looted. Over \$15,000 was secured from the captain's safe.

SWEEPED OVER THE FALLS.

Two Men Floating Down the Ohio Have a Narrow Escape.

LOUISVILLE, Ky., Aug. 30.—A pleasant trip of 1,800 miles would have had a fatal termination last night on the Ohio river falls but for the promptness of Captain Devan and his crew of lifesavers. A signal of distress was sent out from the Indiana shore. Two men were seen in a small boat about to go over the falls. The lifesavers rowed like madmen, but before they could reach the boat it had drifted into the current and was swept over the falls. As quickly as possible the lifesavers hurried around the falls and rescued the two men as they were going down. They gave their names as Jeremiah and George Bristow. They had rowed and floated in the skiff from Jamestown, N. Y., a distance of 1,800 miles.

SLOWLY STARVED TO DEATH.

Miss Ida Owens Lives Eleven Weeks Without Food.

BELLEVILLE, Ill., Aug. 30.—For 11 weeks Miss Ida Owens has slowly starved to death. She was not sick. She craved food, but could not eat. In her 30 years she had not known sickness. She weighed 140 pounds when she caught the gripe at a picnic recently, and her esophagus was obstructed. An autopsy showed a stricture two inches above the stomach's entrance through which a needle could not pass.

FAMOUS DENTIST.

Dr. Thomas W. Evans Arrives In This Country With His Wife's Corpse.

NEW YORK, Aug. 30.—Dr. Thomas W. Evans, the famous American dentist, who for the past 40 years has been dental operator in Paris of most of the crowned heads of Europe and many celebrities, returned to this country yesterday on the French liner La Champagne from Havre. He came over with the body of his wife, which is to be interred in Woodlands cemetery, Philadelphia. Dr. Evans is now 75 years of age and is said to be worth \$35,000,000.

During the empire of Napoleon III his fame as a dentist was worldwide. In that capacity he served Napoleon, the Empress Eugenie and all the monarchs of Europe except Queen Victoria and the present sultan of Turkey. Victoria's children and the present czar of Russia when children were his patients. Eugenie escaped from Paris after the battle of Sedan.

Jackson of the choir of the Church of the Incarnation in New York.

The president remained at Mr. Hanna's home today and took part in no social or public functions. Senator Hanna announced last night that the name of his home was not Windermere, as it has been called in the newspapers, but Glenmere.

USED KEROSENE.

Mother, Daughter and Son Burned to Death.

TAMPA, Fla., Aug. 30.—Marie, the 14-year-old daughter of Mrs. Frances Valdez of Port Tampa City, went to the kitchen to start a fire yesterday. She poured on kerosene and instantly there was a deafening explosion followed by the girl's agonizing cries as she ran from the room on fire.

Mrs. Valdez at once went to her daughter's assistance and her own clothing caught fire. Both were burned to a crisp.

The house caught from the flames and was destroyed and a small boy was burned in the house. The fire spread rapidly and five houses owned by the Plant Investment company were burned, there being no fire protection.

FROM YOKOHAMA.

TACOMA, Wash., Aug. 30.—The steamer Columbia arrived yesterday after her maiden voyage from Yokohama with 125 passengers and a full cargo of freight. She was delayed on several occasions and forced to lie to 24 hours on account of breaking machinery. The fireman died of heat and was buried at sea.

The Columbia's cargo includes 1,700 bales of silk valued at \$500,000 which will go across the continent via the Northern Pacific in a special train of eight baggage cars. The Columbia brings Oriental advices up to July 27.

VOTE OF CONFIDENCE.

The Creek Government Has Been Waiting For One For A Week.

ATHENS, Aug. 30.—The government is waiting the result of the appeal made to the chamber last Monday for a vote of confidence before replying to the note of the powers. Some apprehension is felt that a cabinet crisis may occur, but should a vote be obtained the government will indicate its readiness to appropriate the tobacco and stamp revenues as guarantees for an indemnity loan, and its readiness also to agree to the appointment of the ministers of the powers in Athens alone to control the revenues.

NOTICE OF REDUCTION.

RATON, N. M., Aug. 30.—Notice has been posted at the Bismuth coal mines, operated by the Raton Coal and Coke company, of a reduction of 10 per cent in wages, to take effect Sept. 1. The price now paid for mining is 65 cents per ton, but as the men are employed only part of the time they claim they cannot live at the reduced rate.

EARTHQUAKE IN JAPAN.

Tidal Wave Follows and a Thousand Houses Destroyed.

TACOMA, Wash., Aug. 30.—The Japan steamer just in brings news of severe earthquakes in Japan on Aug. 5, followed by a tidal wave and great floods. A thousand houses were inundated and 200 persons were killed and injured. Sixty-five Chinese villages were inundated.

Official information received at Manila confirms the reports previously published as to the disastrous character of the eruption of the Mayon volcano. Lava covered the whole mountain to its base. Several villages were completely destroyed. At Libog 150 bodies were recovered and buried and more remained in the lava. At another place 300 bodies were missing. Some of the bodies were so completely calcined as to be unrecognizable.

Under a woman's work is hard in many ways. Unless the woman is strong and healthy her work will cause her much distress and pain, and she will suffer from headaches and backaches, side-aches, and even evening will find her utterly worn-out, sick and disgusted with life. In this condition of mind and body she cannot be a loving and amiable companion for her husband with the vigor of the organs distinctly feminine, for her general health and strength is largely dependent upon her special health in a womanly way. Dr. Pierce's Favorite Prescription enables a woman to be always well and strong where a woman most needs health and strength. It acts directly on the important and delicate organs involved in her work. Over 90,000 women have testified to the wonderful virtues of the "Favorite Prescription" over their signatures. An honest druggist will not try to force on you a substitute for the sake of a few pennies added profit.

SPANIARDS APPEAR PLEASED.

Seventy-five of Them Carry Bundles Two to Three Feet Long Covered With Canvases—Cubans Fearful of the Result. Senorita Cossio Cisneros' Case—Weyler Goes to Havana Province.

TAMPA, Fla., Aug. 30.—The expedition of Cubans that left here Saturday under the Spanish flag was delayed somewhat by a washout occasioned by heavy rains on the Punta Gorda division of the Plant system. The party did not embark on the tug at Cleveland until early yesterday morning when it sailed away.

When the train arrived at Cleveland 75 Cubans landed with their baggage. Each had a valise and many had bundles from two to three feet long, covered with white canvases. They bore no arms. The Cubans are very much elated but many of them are fearful of the result of an expedition that started under Spanish colors. They gravely shake their heads and say that no good can come of it. They pointed to the yellow coach and the engine with their red trimmings, colors of the Spanish flag, and seemed troubled. The Spaniards are pleased for they predict that an expedition starting under the Spanish colors is likely to end under them.

Telegrams received here yesterday from the deputy collector at Punta Gorda denied that any expedition had sailed from that place. His official attention was immediately called to Cleveland, in his district, which place he overlooked. Revenue cutter Howard arrived at Port Tampa yesterday and signalled at once, calling Captain Rogers ashore, whereupon consultations were held with the treasury officials. The cutter at dark still remained at anchor.

SENORITA CISNEROS.

Weyler Intended to Dismiss the Case Until Recent Publications Were Made.

HAVANA, via Key West, Fla., Aug. 30.—It is asserted here that it was the intention of Captain General Weyler, as the result of quiet and friendly influence on the part of Consul General Lee, to issue an order dismissing the case of Evangelina Cossio Cisneros in a short time, but in view of the publicity given to the case and the many contradictory assertions made in regard to it, the captain general has decided to postpone action for the present.

The military commander of the Isle of Pines recently stated that many of the statements made with reference to Senorita Cisneros were without foundation and that, so far as he could judge, no extreme sentence had been imposed upon her.

It is stated that Senorita Cisneros is still confined in the Casa Recogidas, occupying a well ventilated apartment in the company of other ladies. It is denied that Senorita Cisneros is ill. She is allowed to receive visitors on three days of the week.

Captain General Weyler has left Havana with a small force for the purpose of carrying on military operations in the province of Havana.

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
